

VERTICAL GARDEN

INTERIORS DIVISION

Bespoke Green Art

Vertical Gardening (Green walls) a New Innovation in the Field of Landscaping and Gardening. A Unique, Decorative, Space-Saving Way to Grow Plants, Flowers, Herbs and Vegetables.

Vertical Garden is a wall partially or completely covered with greenery that includes a growing medium, such as soil. This also features a fully integrated timer controlled drip irrigation system.

Vertical Garden are suitable for indoor or outdoor installations for both residential and commercial spaces. They can create a welcoming environment for all.

The system includes :-

- complete metal frame work,
- plastic frame for holding the pots,
- plastic pots to hold the plants,
- soil and the plants,
- timer controlled drip irrigation system.
